EXPERIENCE

New York University

Sep 2019 – Present

Graduate Researcher

- Performed causal analysis on a 32M+ observations administrative dataset, finding that 40% of new managerial positions are filled through internal promotions.
- Executed case study analysis on internal promotions and external hires, revealing that firms expand its size by 2% following a single external managerial hire, while internal promotions have a muted effect.
- Built a search model incorporating external hires and internal reallocation; internal markets account for 13% of aggregate productivity.
- Implemented parallelization on high-performance computer, utilizing 100+ CPUs over 7+ days for model calibration.
- Collaborated with co-authors to evaluate information transmission in asset markets; findings were presented at 4 international conferences.
- Led teaching sessions for 30+ students, providing one-on-one mentorship.
- Organized quarterly faculty-student engagement events with 90+ attendees and secured \$5K in annual funding, strengthening the NYU community.

Federal Reserve Bank of Richmond

May 2024 – Sep 2024

American Economic Association Summer Fellow

- Awarded as one of two winners, recognizing excellence in research and policy relevance.
- Engaged and presented findings to an audience of policymakers and academics.

Federal Reserve Bank of St. Louis

Aug 2024

Summer Dissertation Fellow

- Selected as one of eight fellows, highlighting innovative research contributions.
- Refined and presented findings to top academics in the field, fostering high-level academic discussion.

São Paulo School of Economics

Jan 2018 – May 2019

Teaching and Research Assistant

- Led recitations for 10+ graduate students on advanced economic concepts.
- Analyzed 2M+ Brazilian education records, studying role models and college access for low-income students.

University of São Paulo

Feb 2013 – Dec 2015

Undergraduate Research Assistant

- Analyzed and visualized census data from 450K+ local markets in Brazil to study economic and demographic patterns.
